EDUCATION

Bhagwan Parshuram Institute of Technology   **Delhi, India**

Bachelor of Technology, Computer Science & Engineering Expected May 2027
Overall CGPA: 8.38 / 10.0

TECHNICAL SKILLS

Languages	Frameworks & Libraries	Developer Tools & Databases
C++, Python, JavaScript, TypeScript, SQL, HTML/CSS	React, Node.js, Express, Tailwind CSS, Flask, ShadCN, Zustand, React Hook Form, Axios	Git & GitHub, AWS, MongoDB, PostgreSQL, VS Code

PROJECTS

Full-Stack Music Platform   *TypeScript, React, Node.js, Express, MongoDB*

- Architected and developed a full-stack MERN application to provide a seamless music streaming experience.
- Engineered a secure RESTful API using Node.js and Express to manage user authentication, playlists, and song data.
- Built a dynamic, responsive frontend in React and TypeScript, leveraging Zustand for efficient state management.
- Integrated robust data validation schemas with Zod to ensure type-safety and data integrity across the full stack.

Netflix UI Clone   *HTML, Tailwind CSS, JavaScript*

- Constructed a pixel-perfect, responsive clone of the Netflix landing page, ensuring a seamless user experience on all devices.
- Replicated complex, modern UI/UX patterns using advanced Tailwind CSS and vanilla JavaScript for dynamic interactions.

Interactive To-Do List   *HTML, CSS, JavaScript*

- Developed a dynamic single-page application to manage tasks, demonstrating core JavaScript principles including DOM manipulation, event handling, and data persistence with Local Storage.

TECHNICAL TRAINING

Full-Stack Web Development (MERN)   **Summer 2025**

Brain Mentors (College Summer Training)

Completed an intensive, project-based training program focused on building modern, scalable web applications using the MERN stack and professional development practices.
